

The Disruptive Coach

A 20 hour CCE (ICF approved) Virtual Program for Advanced Coaches looking to disrupt the status quo in their coaching AND in their life.

PROGRAM BEGINS OCTOBER 31, 2017

20+ years after the official launch of the coaching profession, it's time to re-imagine what's possible with coaching.

Beyond helping clients capitalize on new opportunities or create strategies and tactics that provide relief from a persistent issue, WHAT IF coaching can also be a force for *collective* change? for the creation of pathways that help address the complex challenges of our times? for supporting the expansion of consciousness?

As a profession, we are overdue for an update of our interpretations and stories of what it means to be and to coach human beings, at this time on the planet. We need to challenge the myths, assumptions and beliefs that we live and coach by. We need to further develop our own awareness and consciousness. We need to change and expand our own thinking, habits and practices.

***It's time to disrupt our profession.
The world is demanding more of us.***

In this program you will learn and practice 5 foundational principles that source the quality of your coaching mastery(and your life)!

-The Principle of Relationship

Everything relates to everything. You are not separate.

How does who you are being impact the world around you and the results you're getting?

-The Principle of Energy

Everything is energy. What are you attracting with the energy you're projecting?

-The Principle of Reality

Your beliefs create your reality. What do your embedded beliefs allow for and not allow for?

-The Principle of Embodiment

Our bodies are the vehicles through which we generate our reality. How does your somatic-self either support or get in the way of what you are manifesting?

-The Principle of Consciousness

Your thinking, doing and being is limited by the level of awareness you've developed. What do you need to expand your awareness?

Join us for deep conversations...at the edge.

Become bolder, braver and more impactful!

ABOUT YOUR FACILITATORS

Pamela Richarde, MCC

A dedicated explorer, Pamela has an eclectic background, having lived, studied and worked in multiple environments and disciplines. Passionate about expanding into unknown territories her insatiable curiosity has led her to engage in an exploration of culture, community and compassion throughout the world, with a lens in both scientific and spiritual realms.

The last 25 years have found Pamela dedicating her energies to coaching. A pioneer in the field, she is a coach, trainer, mentor and passionate advocate of coaching excellence. She is a past Global President of the ICF, has a BA in Political Science with an emphasis in International Relations; a Masters in Acting, a 2nd Degree Black Belt in Shao Lin Kung Fu and is an avid practitioner of Tai Chi Chuan.

Terrie Lupberger, MCC

Terrie is an executive and team coach for organizations worldwide. Her business experience, international lens, coaching skills, and unique studies into the intersection of business and spirituality give her a unique vantage point when working with clients to get results without sacrificing well-being or care.

Terrie has been contributing to the profession of coaching since 1995. She is a former Global Board Member of the ICF, a member of the Credentialing Committee and also teaches executive coaching at the Univ. of Miami, at Newfield Asia in Singapore and at ITS in Europe. She is a contributing author to several books on coaching and will publish her own book, *You ARE What You Practice*, in September, 2017.

SPECIAL GUEST: Ian McDermott

A thought leader in the field of leadership coaching, he brought coaching and NLP together. He is a co-creator of the International Teaching Seminar's Coach Approach to Communication program and an experienced Executive Coach and trainer. Ian works globally in behavioral change, entrepreneurship and innovation in a variety of settings.

Ian is an Honorary Fellow of Exeter Univ. Business School; Dean of Innovation & Learning for the Purposeful Planning Institute and his work is featured in the Open University's MBA course 'Creativity, Innovation and Change'. Ian is also External Faculty at Henley Business School and a co-creator of the Henley MSc. in Coaching and Behavioral Change.
